

**AMENDMENTS TO THE SPECIFICATION:**

Please amend the paragraph beginning at page 14, line 14, as follows:

FIGURE 7 graphically shows a sequence of web pages that may be used by an auditor reviewing data on an individual fuel rod selected using the fuel rod browser image [[26]] 18 (shown in Figure 4). When an auditor selects (from the bundle image [[26]] 18) an individual rod to be reviewed, a web page 64 that presents quality (QA) information of the rod, in step 6. The page presents in summary form the history of the rod ("transactions"), rod characteristics ("Hardware traces" and "zone traces"), information about the identification of the rod ("rod S/N"), and other rod information. The rod summary information is presented in data fields 66 of the web page that are linked to databases having more detailed information supporting and related to the summary rod information. The listing is of documents that relate to the feature, e.g., a fuel rod, on the graphical map that is selected by the auditor. The listing of parts list and certification data provides links to documentation held within one or more databases that stores the documentation listed in the web screen.
